

This is the final shield. An **"Intent to Use" (ITU)** filing is the strategic move for a "One Man Army." It secures your name *today* (giving you the Priority Date) even though you haven't sold the product yet.

Below is the **Official Filing Cheat Sheet**. You cannot "upload" a PDF to the USPTO; you must type these answers into their web form (TEAS Plus).

Open the [USPTO TEAS Plus Form](#) in a separate tab, and copy-paste these exact answers to secure your monopoly.
